Improving Your Image: The Whole Story

Time of Course: 09:00 to 16:30

Course Fees: Dentist @ £250 up to 3 additional team members @ £150 each +VAT.

Maximum 12 delegates.

Contact: http://www.thedigitaldentist.co.uk/training.htm

**Course details:**

One day hands on dental photography course for the whole team.

Free SD card supplied for use during the day and to take your days images away.

Mirrors retractors and contrasters supplied for your use during the day or bring your own.

*Already have your DSLR camera, macro lens and ring flash...or just a DSLR camera?*

This course is for you:

Have your cameras set up by a professional photographer to get consistent results time and time again.

If you only have a camera and want to try lens/flash combinations they will be available to use on the day and to purchase.

*Don't have a DSLR camera?*

This course is for you:

Canon and Nikon ‘demo’ set ups will be available to use throughout the day, bring your team along so that you can make a team decision as what works best for you. There will be kits to purchase on the day too.

**The Course consists of:**

- **Introduction to Digital Photography which covers pros and cons of choice of camera/lens/flash combinations.**

- **Camera settings for consistent magnification and colour.**
  - **Consistent ‘Before and After’**

- **Settings for intra oral, and full face.**
  - **Hands on techniques for all in 3 above.**
  - **Standardising views.**
    - Anterior views
    - Buccal views
    - Occlusal views
- Close up quadrants
- Views using a contrasters
- Smile
- Full face
- Profile
- Cosmetic facial views

- Downloading and management of images including RAW.
- Improving poor images using Photoshop Elements and options for chairside demonstration.

- Use of PowerPoint for ‘quick presentations’.
- Producing a ‘Photo Book’ as a ‘treatment portfolio’

- Importance of backing up and options for back up systems.
